HUBYBUY TOM HUBYBUY TOM "I love the game, however.. " the graphics are alright but do not look as best as FF3 or Dragon Quest 9. the controls are simple but are different from ff and dragon quest, so much that I feel like was slightly addicted to doing online " " the game is very playable, the combat is similar to dragon quest 9 and FF3, however, I do not like it as much as dragon quest 9 because the enemies are so weak, weak as if they were training for naruto, you can even advance in the story without running a lot of enemies, actually, I barely hit monsters with 4 stars so I have not been too far in the story." "The game has many combat systems that make it fun and interesting, however, they are very easy and they are all very similar to ff3, if you are a ff3 player you will not enjoy the combat unless you are a master, however, a skilled player can do great things. " "The controls of the game are amazing, I do not know who made them but whoever did he did a great job on it, as if it were made on a pad, the only thing I do not like are the menus, they could have done something simpler for us right now. " "The game has very beautiful graphics, the people who decided on the graphics also decided on the music too and it is great, I have been very entertained by the music, I will not spoil the atmosphere of the game so I will not give any specific notes." "The number of enemies was great, the town was well designed and the graphics were very good, however, the story is not very interesting and in many places feels like it was made for the sake of story with not much importance on the original gameplay. " "I do not know who decided on the pixel art, I am not a pixel artist so I can not give a proper opinion, but I like it nonetheless, however, the character have not been very clear and beautiful. " "There are two areas in the game that I liked the most, the first one is the village, the map is well designed and the pixel art is amazing, the town has a very nice and unique design and I liked the atmosphere, however, the story feels like it was made for the bff6bb2d33

THE FLAX What is the Flax? Originally, the Flax is an ancient herb found in the Lands Between that has the power to grant wishes by purifying the soul of bad men. For a very long time, the Flax was protected by the powerful and mysterious Flax Man, and the Flax Man was also able to grant wishes. In the Forests, however, a poisonous weed has grown in an area where Flax is plentiful, and has taken root in the soul of the Flax Man as well. Even if a Flax Man possesses the Flax, he cannot cast a wish that requires raw Flax, and its fruit must be harvested from trees that have been planted with Flax seeds, then refined by other Flax. At the same time, the Flax Man has begun to wander the lands with his disciples. The Flax Man, who is wrapped in a mantle of good will and acts as a savior of humanity, leads the Nord's in their desperate search for the Flax Man's granddaughter, who is said to be held by a group of wicked elite known as the Sin Providers.
